PROJECTS

Sassy Cat in Space

GitHub: [Code](#) | **Deployed site:** [Sassy Cat](#) | **Role in project:** Front End

Sassy Cat in Space is a delightful little galactic domination simulator. If you've ever wondered what it would be like to hop into a ship that seems to hate you, fly to real exoplanets discovered by NASA and attempt to conquer them for political power, then this is the game for you.

- This project was designed and built in two weeks with a team of four. Using GitHub, slack, Trello and as much face-to-face communication as possible.
- Built with VS Code, HTML5, CSS3, Bootstrap, Node.js, Express, MySQL, Heroku and Sequelize

Guardians of the Galaxy Quiz

GitHub: [Code](#) | **Deployed site:** [Guardians Quiz](#) | **Role in project:** All roles

Find your ultimate hero match! Answer 10 simple questions to be matched with your perfect Guardian.

- This project was designed and built in one week
- Built with VS Code, HTML5, CSS3, Bootstrap, Node.js, Express and Heroku

Bamazon Marketplace

GitHub: [Code](#) | **Deployed site:** [Bamazon](#) | **Role in project:** All roles

Bamazon marketplace is a complete shopping app. You can browse for items, add them to your cart, empty your cart and buy as many as you'd like. All back ended by a MySQL database.

- This project was designed and built in a week and a half
- Built with VS Code, HTML5, CSS3, Bootstrap, Node.js, MySQL, Inquirer and Console.table

EXPERIENCE

Director of Maintenance – *Spectrum Retirement* – Centennial, CO

2016 - Present

A DOM's job is to make sure the community runs smoothly. Responsible for every part of the building inside and out. Daily tasks include: Work order completion/resident requests, apartment make readies, preventative maintenance, systems upkeep, cleanliness, atmosphere and vendor relations.

Head Instructor, Manager and Marketing – Premier Martial Arts – Aurora, CO

2011 - 2016

As Premier Martial Art's Head Instructor consisted of teaching all classes, events and seminars. Also responsible for technical support, management, marketing, customer service and maintenance.

Network Operations Technician – Twin Eagle Consulting – Centennial, CO

2009 - 2011

Twin Eagle is a group of consulting engineers with a focus on radio network installation and monitoring. Created installation, radio layout and technical walk-through documentation. Monitored radio networks for Police, Firefighter, Water and Oil Companies. Oversaw construction of radio towers in oil fields, set up and installed radios and monitoring equipment.
